Please find below and/or attached an Office communication concerning this application or proceeding.

Commissioner for Patents

Per request of the inventor for written documentation regarding insufficient funds and informalities in the oath/declaration of Application No.: 10/605,074, entitled "Optimized calibration data based methods for parallel digital feedback, and digital automation controls".

1. Insufficient Funds

There are 9 nine independent claims, (nos.: 1, 2, 4, 6, 9, and 17-20). The inventor has paid for 2 additional independent claims in excess of 3. Fees are owed for 4 additional independent claims at \$100.00 each, which is a total of \$400.00 for 4 claims.

2. Informalities in the Oath/Declaration

a) The signature on the electronic oath/declaration filed on September 6, 2003 is improper. An electronic signature should have the inventor's full name, including middle initial if applicable, inserted between two single forward slashes.

Ex. /John T. Smith/

b) The inventor failed to disclose the name of the country of citizenship. As defined by MPEP 1.61, an oath/declaration filed under MPEP 1.51(b)(2) as part of a nonprovisional application must:

Identify the country of citizenship for each inventor.

c) The inventor failed to disclose his mailing address on the oath/declaration as defined by MPEP 1.61. Unless information is supplied on an application data sheet in accordance with MPEP 1.76, the oath or declaration must also identify:

The mailing address, and residence if an inventor lives at a location which is different from where the inventor customarily receives mail.

The applicant is given a TIME PERIOD of ONE (1) MONTH or THIRTY (30) DAYS from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).
